

## Colorado Top Rebate-Producing Residential Trade Partners 2022

The contractors you will find here have met certain criteria which allow them to offer rebates to our customers. Xcel Energy does not expressly or implicitly guarantee or warrant the work of the contractors listed. It is solely your decision to choose the appropriate contractor for any work you choose to have done relating to a rebate program. Xcel Energy reserves the right to refuse payment and participation if the account holder or contractor violates program rules and procedures. Xcel Energy is not liable for rebates promised to an account holder as a result of a contractor misrepresenting the program. Xcel Energy does not expressly or implicitly warrant the performance of installed equipment (contact your contractor for detailed equipment warranties). You also agree that you will not bring any claim against Xcel Energy relating to any work that any contractor performs, because that arrangement is between you and the contractor only.
